FOR IMMEDIATE RELEASE

Storage Tank Industry Veteran, Leslie D. Scott, P.E.

Joins Tank Industry Consultants

Leslie D. Scott, P.E., one of the foremost tank engineers in the US and a 37-year veteran of the storage tank industry, will join Tank Industry Consultants (TIC), the nation's leading professional water storage tank engineering and inspection company in mid-May, 2018. Leslie's work experience has included a wide variety of assignments encompassing numerous aspects of the field-erected and shop-built storage tank business including engineering, detailing, fabrication and construction processes, coatings, project management, inspection, and estimating functions. Leslie's experience includes projects conforming to AWWA, API, ASME, NFPA, FM, UL, STI/SPFA and fire code standards. Leslie will be Chief Engineer for TIC. Operating from TIC's office in the San Luis Obispo, California area, Leslie will assist TIC's clients with water storage tank design, evaluation, and rehabilitation projects.

Leslie has been actively involved in numerous tank-related standards development committees/subcommittees of the American Water Works Association (AWWA) for over 30 years.

In addition to its office in San Luis Obispo, Tank Industry Consultants has offices in Indianapolis, IN (Headquarters); Plainfield, IL; Pittsburgh, PA; Houston, TX; and El Paso, TX.
